# WHAT IS NFT?

Blockchain assets can be classified as either fungible or non-fungible tokens. Fungible tokens are interchangeable and they are identical which can be replaced by any other identical token while Non-Fungible tokens (NFT) are one of a kind and cannot be exchanged, interchanged or replaced.

Since their emerge in 2017 NFTs have seen explosive growth way above value of more than \$2,5 Billion in mid 2021. Non-fungible tokens is the new trend and piggy bank within the blockchain communities with NFTs growing in value every day and with every transaction as any NFT can be traced back to the collection or creator to determine its value and authenticity. NFTs are rapidly gaining popularity among companies, artists, celebrities and influencers making it super profitable to the early holders.

# NFTs & PLATFORM POWERED BY \$NFTW VIA UNITY ENGINE

\$NFTW is a representation of so called crypto-whales that are passionate about blockchain and collecting Non-fungible tokens (NFTs).

NFTWhales is a community-focused multi-chain DeFi and NFT platform with aim to bring NFTs to life in near future with MMO Heroverse powered and developed within Unity Engine.

Collect NFTs and unlock, sell, buy, trade them as playable characters while holding \$NFTW tokens and earning Bitcoin as passive reward.

\$NFTW is the vital part and main asset of both MMO and NFT platforms which gives the ability to both sides of the community to earn a stable passive income and help project to grow every single minute.
